

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

The following requirements have been developed to ensure that modifications or improvements to the building and/or building systems and equipment are completed to building standards while maintaining a level of safety consistent with industry standards. The review of tenant plans and/or specifications by Boston Properties and its insurers, consultants or other representatives, does not imply that any plans so reviewed comply with applicable laws, ordinances, codes, standards or regulations. Nor does Boston Properties' review or approvals imply that any work is to be performed at Boston Properties' expense.

Boston Properties has the explicit right to remove from the project any person who does not comply with these rules after one day's notice.

I. GENERAL

- A. No work will be performed until Boston Properties has received three (3) sets of signed and sealed drawings and specifications and has given written approval.
- B. All modifications to the building or to the building systems and equipment must comply with state, federal and local codes and ordinances.
- C. The contractor and its subcontractors shall comply with all applicable federal, state or local laws, regulations, ordinances, rules or codes relating to employment or conditions of employment of its employees, including, without limitation, laws or regulations concerning workers' compensation, social security, unemployment insurance, classification of employees, hours of labor, wages, working conditions, safety regulations and work practices. The contractor and its subcontractors confirm that their employees are licensed and qualified under all applicable federal, state and local requirements.
- D. Prior to the work commencing, a building permit must be obtained and displayed.
- E. At the completion of the work, the contractor shall furnish to Boston Properties two (2) sets of blackline prints and one complete CADD.DWG disk file showing the final as-built construction work performed.
- F. The contractor must notify Boston Properties of all work scheduled and must provide Boston Properties with a list of all personnel working in the building.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- G. The contractor must furnish Boston Properties with a list of all subcontractors including emergency phone and/or pager numbers prior to commencing the work.
- H. The contractor must provide an on-site project superintendent at all times that construction work is underway. This supervisor must be knowledgeable of the project's scope of work and have adequate on-site reference materials including plans, specifications and MSDS information on all materials used in the performance of the work.
- I. All workers must be dressed appropriately when working in an occupied building. Shirts must be worn at all times. No shorts are permitted.
- J. All carts must be furnished with pneumatic tires and rubber bumpers.
- K. Smoking is not allowed in any occupied building.
- L. The use of radios is prohibited.
- M. Prior to the start of work, all blinds must be raised and bagged, all windowsills and other base building components must be adequately protected and the protection must be maintained. Workers must not stand on windowsills or other building components.
- N. Any work that requires access to another tenant's space must first be coordinated through Boston Properties. Any additional costs of security or building engineering services required due to contractor's work or during the performance of the contractor's work shall be charged to the contractor.
- O. Dumping of construction debris into building drains, mop sinks, trash dumpsters, etc. is strictly prohibited. If this does occur, the contractor shall be charged 200% of the cost of clearing any drain, including administrative time, where evidence of this is found.
- P. Base building restrooms within the construction area will be available for use by the contractor unless Boston Properties dedicates an alternate location. Contractor shall be responsible for any damage to the restrooms and for cleaning and stocking during construction. All other base building restrooms shall be locked and are not to be used by construction personnel.
- Q. Use of the building stairwells for moving construction materials and construction personnel shall be limited to the stairwell designated by Boston Properties.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- R. The contractor shall repair all existing public area finishes disturbed by the new tenant work or damaged by the contractor's or subcontractor's personnel.
- S. There is to be no verbal contact or comments between the building tenants, their employees, clients or guests and the contractor's personnel.
- T. No work will be performed from **8:00 am to 6:00 pm Monday through Friday and 8:00 am to 2:00 pm Saturday** that will disturb or inconvenience any existing tenants in the building (e.g. core drilling, shooting track, noxious odors, etc.). Boston Properties must preapprove any work that entails noise, vibration or noxious odors.
- U. **This is a post tensioned concrete structure**, prior to core drilling, cutting, or penetrations greater than 1/2", all slabs must be x-rayed and Boston Properties' structural engineer must review x-rays before commencing the work. If obstructions are detected, the core drill locations must be moved as necessary. Ultrasound and GPR are acceptable substitutes for X-ray only upon approval by base building structural engineer.
 - **Concentration of punching shear stresses, reinforcement, and PT cables are heavier around the columns. Keep any coring as much as possible away from the columns. No coring is permitted in the beams or column drops. Location of all corings shall be approved and backed by tests as per above. Any coring shall clear PT cables by 3" minimum and rebars by 1" minimum.**
 - **Duct supports, conduit attachments, ceiling hangers etc. should all be supported by powder actuated fasteners with maximum slab penetration of 5/8". Hilti HDI-P drop-in anchors with 3/4" may be used with the assumption that the drill bit will penetrate a maximum of 3/4". These hanger locations should also be coordinated with the formwork paint markings to avoid the indicated locations of tendons on the underside of the slab.**
- V. Any roof related work must be performed by the roofing contractor designated by Boston Properties.
- W. The contractor shall immediately report all accidents to Boston Properties in writing after first notifying Boston Properties by telephone.
- X. Boston Properties shall approve manufacture of lockset and key cores for compatibility with building master keying system.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- Y. Boston Properties' designated glazing subcontractor must perform removal and replacement of exterior glass.

II. INSURANCE

CONTRACTOR'S LIABILITY INSURANCE:

- A. The contractor shall purchase from and maintain until completion of the work, except as otherwise provided herein, with a company or companies lawfully authorized to do business in the jurisdiction in which the building is located such insurance as will protect contractor from claims set forth below which may arise out of or result from the work, whether such work is by contractor or by a subcontractor or by anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable:
1. Claims under workers' compensation, disability benefit and other similar employee benefit acts which are applicable to the work to be performed;
 2. Claims for damages because of bodily injury, occupational sickness or disease, or death of contractor's employees;
 3. Claims for damages because of bodily injury, occupational sickness or disease, or death of any person other than contractor's employees;
 4. Claims for damages insured by usual personal injury liability coverage;
 5. Claims for damages, other than to the work itself, because of injury to or destruction of tangible property, including explosion, collapse and damage to utilities and loss of use resulting therefrom;
 6. Claims for damages because of bodily injury, death of a person or property damage arising out of ownership, maintenance or use of a motor vehicle; and
 7. Claims for bodily injury or property damage arising out of completed operations.
- B. The insurance shall, at a minimum, include the following insurance coverages:

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

1. Workers' compensation insurance providing statutory benefits for all persons employed in connection with the work and employer's liability insurance in an amount not less than \$1,000,000 each accident/\$1,000,000 each employee/\$1,000,000 annual policy limit, with coverage to be listed in the underlying schedule of any umbrella or excess policy. The coverage shall include occupational disease coverage with a limit of \$1,000,000 per person subject to an aggregate limit of \$1,000,000 per annum.
 2. Commercial general liability insurance insuring against liability for bodily injury and death and for property damage in an amount not less than \$2,000,000 per occurrence and \$4,000,000 annual aggregate. This insurance shall include operations-premises liability, contractor's protective liability on the operations of contractor and all Subcontractors; products and completed operations (to be kept in force for not less than five (5) years after completion of the work); broad form contractual liability (designating the indemnity provisions of the contract); a broad form comprehensive general liability endorsement providing blanket automatic contractual coverage including bodily injury to employees or others assumed by the insured under contract and liability assumed under the contract; an endorsement that foundation, excavation or demolition work and operations related thereto are covered and that the XCU Exclusions have been deleted; if applicable, elevators and escalators; and pollution coverage for losses arising out of a hostile fire. The commercial general liability insurance policy shall be written on an occurrence basis.
 3. Automobile liability insurance for all owned, non-owned, leased, rented and/or hired vehicles insuring against liability for bodily injury and death and for property damage in an amount not less than Five Million Dollars (\$5,000,000) combined single limit.
 4. Excess/umbrella liability insurance of not less than \$10,000,000 per location annual aggregate to be excess over the coverages described above.
- C. All policies of insurance to be provided by contractor hereunder shall be (1) issued by financially responsible companies licensed to issue such insurance in all applicable states and that have an A.M. Best rating of "A-" or better and a financial size category of VIII or larger and otherwise satisfactory to each of the additional insured parties designated herein; and (2) in form and substance satisfactory to Boston Properties and each party designated herein as an additional insured party

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- D. All policies of insurance to be provided by contractor hereunder shall also insure the interests of Boston Properties, any Indemnitees and their respective constituent members and partners, each of whom shall be named as additional insureds under such policies. Such insurance shall provide that the additional insureds shall be covered for their costs of defense of any insured claim outside the limits of coverage provided.
- E. Prior to commencement of the work, contractor shall submit to Boston Properties certificates of insurance and policies in form and substance acceptable to Boston Properties evidencing existence of the insurance coverages required hereunder. Each certificate of insurance shall contain a provision that the coverages provided under the respective policies will not be canceled, materially changed or allowed to expire until at least 30 days' prior written notice has been given to Boston Properties. If any of the insurance coverages are to remain in effect after final payment is made to contractor, additional certificate(s) of insurance evidencing continuation of such coverage shall be submitted to Boston Properties, together with the contractor's final payment, and a further certificate of insurance shall be delivered to Boston Properties, from time to time, after final payment to evidence the existence of all coverages that are to continue in effect following final payment. Not less than fifteen (15) days prior to the expiration date of each policy furnished to Boston Properties in accordance herewith, contractor shall deliver to Boston Properties a certificate of insurance evidencing the renewal of the applicable policy. In addition to the certificates of insurance, copies of the insurance policies shall be delivered to Boston Properties within ten (10) days following the commencement of the work.
- F. The Indemnitees and such other parties designated by Boston Properties (each, an "**Additional Insured Party**") shall each be named as an additional named insured or an additional insured with respect to the commercial general liability insurance, the automobile liability insurance and the excess/umbrella liability insurance required to be provided and maintained in accordance with the contract.
- G. The commercial general liability insurance, automobile liability insurance and excess/umbrella liability insurance policies shall be endorsed to (i) provide that the coverage provided thereunder shall be primary and non-contributory (and any liability insurance of each additional insured party shall be secondary and non-contributory); and (ii) waive any right of subrogation against each Additional Insured Party.
- H. Contractor is responsible for requiring that each subcontractor and

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

supplier maintain during its subcontract insurance of the type and in the amounts normally required by the contractor, given the subcontractor's or supplier's size and its scope of work, including but not limited to commercial general liability and worker's compensation and for obtaining certificates of insurance evidencing the insurance and naming Boston Properties and the following additional insureds:

One Freedom Square, L.L.C., a Delaware limited liability company
Boston Properties Limited Partnership, a Delaware limited partnership
Boston Properties, Inc., a Delaware corporation
BP Management, L.P., a Delaware limited partnership

- I. Intentionally omitted.
- J. If contractor fails to purchase and maintain or require to be purchased and maintained, any insurance required hereunder, Boston Properties may, but shall not be obligated to, upon five (5) days' written notice to contractor, purchase such insurance on behalf of contractor and shall be reimbursed by contractor upon demand for all amounts paid by Boston Properties in connection therewith. In no event shall any failure of Boston Properties to receive or demand evidence of such coverage prior to contractor commencing the work be construed as a waiver by Boston Properties of contractor's obligations hereunder. Contractor hereby agrees to indemnify, defend and hold Boston Properties and each additional insured party harmless from any loss, cost or expense that such parties may incur as a result of contractor failing to purchase and maintain the insurance required hereunder. Compliance by contractor with the insurance requirements contained hereunder shall not relieve contractor of liability under any indemnity or other provision set forth in the contract or limit contractor's liability under the contract.

CLAIMS:

- A. Contractor shall promptly investigate and make a full written report to Boston Properties and to Boston Properties' insurance carriers as to all alleged accidents and/or alleged claims for damage or destruction of the building and the estimated cost of repair and shall perform all necessary recordkeeping related to same. At the request of Boston Properties, contractor shall cooperate with Boston Properties and its insurance carrier(s) in procuring all reports required by the insurance carrier(s) and shall do nothing to jeopardize the rights of Boston Properties and any other party insured under said policies. Contractor and Boston Properties shall each notify the other (and, at Boston Properties' request, contractor shall notify Boston Properties' insurance carriers) of any casualty or of any

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

claim made against the other or both jointly and severally on account of personal injury or property damage, and shall cooperate fully with any insurance carrier in connection with any such claim, which cooperation shall include, without limitation, attendance at meetings and court proceedings and the like; provided, however that, by so cooperating, contractor shall not settle any losses, complete loss reports, adjust losses or endorse loss drafts without the prior written approval of Boston Properties.

- B. Contractor shall notify Boston Properties promptly upon the discovery of any defect with respect to the work, without relieving contractor of the responsibility for addressing such defect as a part of its services, as provided elsewhere in the Contract.
- C. Contractor shall provide such information to Boston Properties and Boston Properties' insurance carriers and shall attend such meetings as shall be necessary from time to time to ensure that the insurance carried hereunder appropriately addresses issues pertaining to and conditions at the building, including, without limitation, exposure information, loss control and protection of the building and current replacement cost figures.
- D. Boston Properties in good faith shall have the right to adjust and settle a loss with insurers unless the Boston Properties' lender exercises its right to join Boston Properties in the adjustment and settlement of any particular loss in which case the adjustment and settlement shall be conducted jointly by Boston Properties and its lender.

III. LIFE SAFETY

- A. Contractor shall perform the work in full compliance with NFPA 241 which prescribes the minimum safeguards for construction, alteration and demolition operations necessary to provide reasonable safety to life and property from fire.
- B. Contractor shall furnish Boston Properties one set of sprinkler shop drawings once they are completed by subcontractor and ready for submittal to the Fire Marshall. Once approved by the Fire Marshall, the contractor shall furnish Boston Properties one set of the approved sprinkler shop drawings.
- C. Contractor will not disconnect, tamper with, delete, obstruct, relocate, or expand any life safety equipment except as indicated on drawings approved by the Boston Properties. Contractor shall not interfere with or

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

delay any other contractors' (or Boston Properties') inspections which are scheduled prior to the contractor's inspections or testing.

- D. The contractor must take necessary precautions to prevent accidental fire alarms. Contractor will be charged for all emergency response costs and penalty fees imposed by any authority having jurisdiction over the building for any accidental fire alarms caused by their activities. In the event of an increased likelihood of an accidental fire alarm by the contractor's activities, such as demolition, sprinkler work or hot work, the contractor must take steps needed to prevent accidental alarms, including but not limited to, monitoring the fire alarm panel for accidental alarms.
- E. Any unit or device temporarily incapacitated will be red-tagged "Out of Service" and Boston Properties will be alerted prior to the temporary outage. See attached "Guidelines for Managing Construction Project Fire Protection Impairment".
- F. The base building fire alarm system shall monitor all tenant installed special fire extinguisher/alarm detection systems. The connections to the base building fire alarm system will be at the tenant's expense.
- G. All Tenant installed fire alarm initiation and notification devices that connect with the base building fire alarm system shall match the base building system and be approved by Boston Properties.
- H. All connections to the building's existing fire alarm system are to be made only by the subcontractor specified by Boston Properties.
- I. All fire alarm testing will be scheduled at least 72 hours in advance with Boston Properties and must occur after normal business hours if the building is occupied.
- J. Combustible and hazardous materials are not allowed to be stored in the building without prior written approval of Boston Properties. Material safety data sheets on all materials to be stored in the building must be kept on site and a copy submitted to Boston Properties.
- K. Dust protection of smoke detectors must be installed and removed each day (if operational). Dust protection is required during construction to avoid false fire alarms and damaging of detector system. Filter media must be installed over all return air paths to any equipment rooms prior to demolition. The media must be maintained during construction and removed at substantial completion.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- L. All buildings are to be fully protected by automatic sprinkler systems in accordance with Boston Properties' standards and specifications.
- M. All sprinkler systems and equipment are to be designed and installed in accordance with the current standards of the National Fire Protection Association.
- N. All equipment, devices, materials, hangers, etc., used in the life safety system installation must be UL Listed and FM Approved.
- O. Connections to the base building sprinkler system/standpipe riser shall be provided with a control valve and water flow alarm device. Sprinkler system control valves shall be UL Listed and FM Approved, clockwise closing, indicating valves with supervisory switches.
- P. The entire sprinkler system should be designed and installed in accordance with NFPA Pamphlet No. 13, 231 and 231C latest issues.

Note #1: If concealed type sprinkler heads are to be utilized in office areas, the system is to be designed as an Ordinary Hazard Group 1 System.

Note #2: For light hazard designed systems, the hydraulically most remote design area shall not be allowed a 40% reduction. The minimum design area shall be 1500 square feet.
- Q. Enclosed, as Attachment "A", is a copy of the "Guidelines for Managing Construction Project Fire Protection Impairments".
- R. All corrective work to the fire alarm system due to the contractor's work shall be charged to the contractor.

IV. PARKING - LOADING DOCK

- A. Contractors, subcontractors and their personnel will not use the loading dock area for daytime parking without first obtaining permission from Boston Properties 48 hours in advance to assure dock availability. Unauthorized vehicles will be ticketed and towed.
- B. Use of the loading dock for deliveries/trash removal must be scheduled through Boston Properties.

V. UTILITIES

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- A. Utilities (i.e. electric, gas, water, telephone/cable) must not be cut off or interrupted without 48 hour notice and written permission of Boston Properties and affected tenants.
- B. In unoccupied tenant space under construction or control by the contractor, the contractor shall turn off all lights, except emergency lighting, at the end of each workday. In the event the contractor fails to turn off the non-emergency lighting at the end of each work day, the contractor will be invoiced for the excess electric consumption at the rate of \$0.01 per square foot, per day.

VI. SECURITY

- A. The contractor will be responsible for controlling any keys or access cards furnished by Boston Properties and will return them daily to Boston Properties.
- B. The contractor will be responsible for locking any secure area made available to the contractor whenever that area is unattended.
- C. Contractors may be required to wear identification badges, in which case the badges will be issued by Boston Properties to the contractor.

VII. ELEVATORS

- A. No passenger elevators will be used to move construction material or construction personnel.
- B. The service elevator can be used to move construction personnel at any time during the day, provided the elevator doors are not held open. The service elevator can not be used to move construction materials into the building during building operating hours unless approved in writing by Boston Properties. All other usage must be scheduled with Boston Properties with at least 48 hours notice.
- C. Any costs to repair damage to the elevators including dust or dirt in machine rooms or shaft or costs for service calls resulting from the contractor's operations will be charged to the contractor.
- D. Material that does not fit into the service elevator must be delivered through a window opening. The contractor will be required to properly remove and replace the glass and to adequately protect the window framing with prior approval from Boston Properties.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

VIII. CLEANING

- A. The contractor will remove all trash and debris daily or as often as necessary to maintain cleanliness in the building(s). The building trash compactors or containers are not to be used for construction debris.
- B. Walk-off mats or other protection must be provided at door entrances where work is being performed.
- C. Carpeting shall be protected by plastic runners or hardboard as necessary to maintain cleanliness and to protect carpets from damage.
- D. Tile, granite and wood floors shall be protected from damage as necessary.
- E. Contractor will furnish a vacuum(s) with a supply of clean bags and an operator to facilitate ongoing clean- up.
- F. Trash removal will be scheduled and coordinated with Boston Properties.
- G. Contractors must remove all food cartons and related debris from the work area on a daily basis.
- H. Driveway and street cleaning by Contractor will be required when Contractor's work has created mud or debris.

IX. MECHANICAL, ELECTRICAL, AND VOICE/DATA CABLING WORK

- A. Before any new electrical or mechanical equipment is installed in the building, the contractor must submit a copy of the manufacturer's data sheets along with complete shop drawings and submittals to Boston Properties for approval.
- B. Any installation or modification to building HVAC or electrical systems must be first submitted for review by Boston Properties. This includes base building systems as well as supplemental units and/or exhaust systems.
- C. The mechanical and electrical plans must be prepared by a licensed engineer and must show size and location of all supply and return grilles. We may require that Boston Properties' MEP engineer review the MEP drawings. In that event the tenant will pay for the cost of this review. We will notify the tenant prior to engaging Boston Properties' engineer.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- D. Contractors modifying ductwork, air grilles, VAV boxes, etc. must balance the air and water systems as necessary. All air balancing is to be done in the presence of Boston Properties. Two copies of all balance reports shall be submitted to Boston Properties for review and approval.
- E. Any domestic or condenser water connections made to the building's piping system, must include a high quality isolation valve, (brass bodied gate or ball-type) and adequate system drain valves. If the system piping is of a different material a dielectric union must be installed. All valves and equipment must be easily accessible; access doors are required in drywall or other fixed construction.
- F. Exhaust fans discharging air directly into the ceiling plenum are for room-generated heat transfer applications only. Air cooled condensers and fans used for toilet, smoking, or chemical fume exhaust shall not be permitted to be discharged into the ceiling plenum.
- G. Where independent tenant-owned air conditioning units are installed, an electric submeter must be used or a flat rate electricity charge will be paid by the Tenant based on anticipated consumption.
- H. As required by code and Boston Properties regulations, all telecommunications, data, access control, security, fire alarm, HVAC control, electrical lighting, electrical power, cable and other systems' wiring and piping which is not to be reused by tenant and is not a part of other tenants' or base building systems, including but not limited to: conduit, BX/MC cable, "plenum cable" (low voltage electric, telephone, data wiring), plumbing and/or mechanical piping shall be removed from the Risers (as defined in the lease to include ceiling plenums, telephone, mechanical, utility and electrical closets and risers) and shall be removed back to the originating terminal block, panel board, wet stack or source as determined by Boston Properties.
- I. The installation of tenant equipment (except emergency lighting per code) on the base building emergency power supply systems is not permitted.
- J. Any existing mechanical or electrical systems and their controls that are to remain shall be properly commissioned. That is, at the beginning of the job the systems will be turned over to the contractor in working condition by Boston Properties. Before beginning any work, the contractor should inspect the mechanical or electrical systems and their controls to ensure their working condition. The contractor should advise Boston Properties of any noted deficiencies. At the end of the job, the contractor will be responsible for the proper operation of the mechanical and electrical systems. If the contractor fails to note any deficiencies at the outset of the

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

job, the contractor will, nevertheless, be required to correct the problems before the system is accepted by Boston Properties.

- K. All circuit breaker panels must be clearly and accurately identified with typed labels.
- L. All base building mechanical equipment shall be properly protected with prefilters, dust covers etc. prior to start of work. Protection shall be removed and equipment wiped down at completion.
- M. Energy management and building control work is to be performed by Boston Properties' designated subcontractor.
- N. Tenant installed equipment that supplements existing base building equipment such as VAV boxes, fire alarm devices, control work; etc. shall be identical to the existing base building equipment to facilitate warranty and maintenance operations.
- O. All concealed equipment shall be located with necessary accessibility for maintenance and repair.
- P. Contractor shall contact Boston Properties 48 hours in advance of wall and ceiling close-in for Boston Properties' inspection.
- Q. All wiring run outside of tenant demised area and in core rooms (i.e. below slab, electrical room, mechanical room or where exposed) shall be in rigid conduit.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

ATTACHMENT A

GUIDELINES FOR MANAGING CONSTRUCTION PROJECT FIRE PROTECTION IMPAIRMENTS

I. IMPAIRMENTS

Impairments to the building sprinkler and fire alarm systems are typically required when renovations involve changes to these systems. The following impairment procedures must be adhered to whenever impairments to the sprinkler or fire alarm systems are required or encountered.

Contractors requiring an impairment shall follow these steps:

1. Request a Red Impairment Tag from Boston Properties' Impairment Coordinator and be prepared to fulfill the responsibilities assigned to the Contractor.
2. Assist the Impairment Coordinator in completing the Pre-Impairment Checklist part of the Red Impairment Tag (Part A).
3. The "hard copy" of the Red Impairment Tag is placed on the impaired equipment.
4. Upon completion of work and/or to release the impairment the contractor shall return the Red Impairment Tag "hard copy" to the Impairment Coordinator.
5. The Contractor and Impairment Coordinator place both parts of the tag together and complete the system restoration checklist (Part B) including signing off that the restoration is complete.

Enclosed as Attachment A-1 is a copy of the Impairment Tag. Important points are as follows:

- A Red Tag Permit is required for any impairment of the sprinkler / fire alarm systems.
- Each permit will be valid for one shift.
- Plan all work to minimize the duration of the system(s) impairment.
- The actual impairment of the system(s) should not take place until all personnel, material and equipment are at the work location.
- If possible, isolate only the work zone for impairment. System(s) must be restored at the end of the work shift.

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

- Impairments to large areas or that would affect primary life safety system(s) should be scheduled for times when the building or area is unoccupied. Fire watch tours of the impaired area shall be established and if applicable, personnel should be provided at closed valves or fire pumps to quickly restore the system if a fire occurs.
- Hot work or other hazardous-type operations shall not be conducted in an area where the fire protection or life safety system(s) are impaired.
- If any hot work or hazardous operations are necessary as part of the impairment, fire watches must be established.

II. HOT WORK

A Hot Work Permit is required for any temporary operation producing open flame or sparks. This includes brazing, cutting, grinding, soldering, pipe thawing, torch applied roofing and welding.

Contractors requiring a hot work permit shall follow these steps:

1. Request a Yellow Hot Work Permit from Boston Properties' Impairment Coordinator and be prepared to fulfill the responsibilities assigned to the Contractor.
2. Assist the Impairment Coordinator in completing Part A of the Yellow Hot Work Permit.
3. The "hard copy" of the Yellow Hot Work Permit is placed at the work location.
4. Upon completion of the hot work, the contractor shall complete Part B of the Yellow Hot Work Permit and return the "hard copy" to the Impairment Coordinator.
5. The Contractor and Impairment Coordinator place both parts of the tag together and sign off/close the Yellow Hot Work Permit.

Enclosed as Attachment A-2 is a copy of the Hot Work Permit. Important points are as follows:

- If there is a practical and safer way to do the job without hot work, we require that method be used.
- No hot work is permitted without authorization from Boston Properties' representative serving as, the firesafety supervisor / impairment coordinator, in the

RULES FOR CONTRACTORS WORKING IN OCCUPIED BUILDING

form of a signed hot work permit. This permit will be valid for a maximum of one eight-hour shift. After this time, another permit must be obtained from and signed by the firesafety supervisor / impairment coordinator, before any additional hot work can continue.

- Specific fire fighting equipment and protection material will be required at the hot work site before work starts. Contractor shall provide all equipment and protection required to ensure fire safe operations or otherwise specified by Boston Properties.
- No hot work is permitted without a designated fire watch present. The contractor is responsible to provide necessary personnel to conduct a fire watch (as defined in the hot work permit) or otherwise specified by the firesafety / impairment coordinator. If unsafe conditions are observed, the hot work operation will be stopped until the hazard is neutralized or eliminated. Additionally, the firesafety supervisor / impairment coordinator must be notified immediately of all unsafe or hazardous conditions.
- The contractor will verify that all equipment associated with the hot work is in proper working order. An inspection of the equipment may be conducted by the firesafety supervisor / impairment coordinator before the hot work permit is issued. Any unsafe equipment must be removed from the property and replaced prior to starting hot work.
- All contractor-owned equipment or materials stored in the facility overnight must be properly secured in an area designated by the firesafety supervisor / impairment coordinator.
- A sprinkler impairment and hot work in the same zone at the same time will not be allowed.
